### SHIELDED FOUNDATION NATANNE ROSA

**FOR SHIELDED SKIN TECHNIQUE**

THE TRUE SHIELDED  
FOUNDATION

HIGH RESISTANCE  
HIGH COVERAGE  
MORE VICIOUS SKIN  
GREATER DURABILITY  
WATERPROOF

For the success and performance of the technique it is necessary to apply the base with all the necessary procedure.

The Shielded Foundation is an exclusive product by Kohll Beauty, with technology differentiated from common foundations.

It's a new experience for users. Forget how you used your products until today, the Shielded Base requires adaptation to the product and technique.

You don't have to be a professional to use it.

#### APPLICATION MODE 01

##### ALWAYS SHAKE BEFORE USE

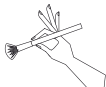

Do a good skin hygiene.

Press the pump enough to get a small amount as the Shielded Base has exceptional performance.

Apply on a smooth surface (plaque) or even on your hand and then start to spread with the help of a brush or sponge. We indicate a thin layer of the product.

For a better finish, use a damp sponge, leaving the skin with a more natural appearance and facilitating the finish. Then continue applying the other products.

It is normal for the skin to feel sticky because our foundation has innovative technology in order to promote more resistance, containing many film formers in its formulation and even if you do not apply the Shielded Skin Technique, you will still have a very satisfactory result in terms of durability.

*The performance of Shielded Skin is guaranteed by using the products in the indicated sequence and using the correct technique for their application.*

#### APPLICATION MODE 02

by NATANNE ROSA

##### ALWAYS SHAKE BEFORE USE

Take the necessary amount from the pump, apply on a plate and add 4 to 5 drops of Shielded Oil Glam to make the foundation more fluid and light, thus being the best method for application on mature skin. The base does not lose strength.

Apply with a kabuki brush, tapping and blending the foundation into the skin at the same time. If there is a lack of coverage in any part, with the sponge well moistened with water, apply more foundation on the place, in this way, with Oil Glam mixed with the foundation, the sticky aspect is reduced.

#### FINALIZATION

Finish the rest of the makeup.

To completely eliminate the sticky look, finish sealing with Kohll Beauty Translucent Powder.

Wait for the drying and anchoring time to complete.

The application lasts around 8 to 12 hours depending on your skin type.

#### PREPARATIONS WITH OTHER BRANDS

Moisturizers: All are compatible  
Primer: All are compatible

We always recommend, as with all makeup, that you test with what you have on hand before using.

#### TIME FOR FIXING

After the skin is finished, wait for the product to dry and anchor for the final result. The time varies from 30 minutes to 1:30 hours, depending on your region and climate.

#### FIXING TEST

Wet your hands and run your fingers over the skin or squirt water, then wipe with a white tissue so you can see that the skin is intact and without transfer.
